

Site Visit Notes

Flood Risk Management

Enquiry/Location	Breedon on the Hill
Held on	9 th January 2018
Time	14:00
Venue	Breedon on the Hill
Reason for site visit	To refine the hydraulic model based on the findings of the site visit and additional highways information.

ATTENDEES	INITIALS	ORGANISATION/MEMBER OF PUBLIC
Victoria Coombes	VEC	LCC
Paul Hands	PH	LCC
Katie Pearson	KP	AECOM
Deniz McAndrew	DM	AECOM
Ken Lo	KL	AECOM
Edwin Knight	EK	LCC Highways
Nigel Page	NP	Flood Warden

SUMMARY OF MEETING:

- The group walked the length of the watercourse and areas of highway drainage reviewing the condition, height etc.
- AECOM identified that the digital terrain model in the existing hydraulic model at the ridge of Squirrel Lane to the east of Breedon Priory Golf Centre is not a true representation of the existing topography and therefore the model will need to be amended to reflect this.
- AECOM advised LCC that they will incorporate additional LiDAR data in this location to better represent the topography.
- Properties with low thresholds were noted as were areas of low kerbing.

AGREED ACTIONS:

ACTIONEE	ACTION
AECOM	To submit a request for any additional data required to enhance the model to LCC asap.
VEC/PH	To obtain the required data as above asap.
AECOM	To refine the hydraulic model based on the findings of the site visit and additional highways information.
